SPEAKERS DEAL WITH ALBERTA LIQUOR ACT AT SUNDAY SERVICE

Sunday last was observed as
field day by the Alberta Tem-
perance and Moral Reform
League and throughout the
riding, the subject of address
dealt with the forthcoming vote
on the Alberta Liquor Act.

In Wainwright, the three
Protestant churches held a
united service in the Elite
theatre, a large audience being
present. The devotional exer-
cises were taken by the minis-
ters, and hymns, the text of
which were thrown upon the
screen, were sung. In addition,
a male quartette and a tempo-
rarily organized choir, con-
tributed to the musical program.

The speakers of the evening
were the Rev. F. W. Gold,

secretary of the provincial or-
ganization and G. V. Polton of
Edmonton. The latter entered
into the terms of the proposed
new reform act and impressed
the audience with his optimism
relative to the outcome of the
forthcoming vote. Mr. Gold
endeavored to tell his hearers,
how the liquor interests had
invaded all classes of society
and was powerful enough to
influence governments. He
finished a lengthy speech with
a forceful appeal to the people
to protect the boy by support-
ing the movement for prohibi-
tion.

The appeal for funds resulted
in a collection amounting to
about \$100.

ACCOMMODATION FOR ALL AT BIG EASTER CONCERT; EXTRA SEATS ARE TO BE PROVIDED

That every person wishing to attend the big operetta to
be given on Easter Monday will be accommodated was today
by H. C. King. Mr. King said the idea was prevalent that
the crowd would be so large that all desiring to be present
could not be accommodated in the Elite theatre. "The
idea is erroneous and we want every person interested to
be in attendance," remarked Mr. King. He said that the
seating accommodation would be increased by 150 seats,
while to provide as much room as possible, temporary
dressing rooms would be made. Doors will be opened at
8 o'clock.

BOOSTERS FOR DISTRICT TALK OVER PROGRAM

Trade Board Executive
Met on Friday Last
Regarding Work

ORGANIZATION WANTS
FARMERS AS MEMBERS

Movement on Foot to
Make All Residents
Interested

Enthusiasm over the oppor-
tunities provided to carry on a
big program of work, the ex-
ecutive committee of the Wain-
wright Board of Trade met in
the Star office on Friday even-
ing of last week and spent two
hours discussing the various
ways and means that may tend
to bring added prosperity to
the town and district in 1915
and the years following.

Every member of the newly
elected executive was in attend-
ance and practically every
phase of board of trade work
was introduced and freely
discussed. The work intended
to be carried out this year will
be compiled in the form of a
program and submitted to each
member of the executive at an
early date. Immediately fol-
lowing its approval, it will be
presented to the town council
when a request will be made
for a donation from the town's
treasury, with which to assist
in the prosecution of the work.

It was practically realized at
the meeting that full co-opera-
tion must be lent to the 1915
officials to carry on the work
as it should be carried on and
an effort will be made to make
every resident and farmer of
the community a member of
the organization. Advertising
will be carried on consistently
and the idea has been launched
to have every person of Wain-
wright and the contiguous
district tell to their farmer friends
all the possibilities the Wain-
wright district provides.

An effort will also be made
to have even the residents of
Wainwright become more in-
terested in their town. Work
will also be conducted to im-
prove the business life of both
the town and district and so
make Wainwright what it
ought to be—the biggest and
best town between Edmonton
and Saskatoon and a town and
district, moreover, that offers
the best to the settler and
homeseeker.

A. E. Mills and W. T. Webb
were appointed delegates to
attend the next meeting of the
U.F.A., to tell members of the
organization what the Wain-
wright Board of Trade proposes
to do and to seek farmer mem-
bers of the local trade board.

CADETS TO PARADE

Wainwright and Edgerton
cadets to the number of 50
strong, will parade to the An-
glican church on Sunday even-
ing next where an appropriate
Easter service will be con-
ducted. The boys will assemble
at the school house at 7 o'clock
and parade in a body to the church.
Rev. H. Assiter, informed the
Star today, that accommodation
would be adequate for the large
congregation expected. He
said that the choir would be
placed on one side of the chun-
cel, while extra seating accom-
modation would also be ac-
quired in the auditorium of the
church.

Among those to spend the
week end in Edmonton were:
Clifford Mooney, Roy Argue,
and Fred Moffatt.

DIED OF WOUNDS RECEIVED IN ACTION; HEATH FAMILY MOURN LOSS OF SON AND BROTHER

More and more every day, the realities of war are being
brought home to the people of Canada and of this district
and today the Star has to announce the death of Private
C. E. Ford of Heath. In a communication received on the
23rd inst. by Mrs. E. A. Ford, the announcement is
made that her son, Private C. E. Ford, of the 90th Wini-
peg rifle, had died of wounds received on March 20th.
Private Ford joined the 90th shortly after war com-
menced and as a member of the first Canadian contingent.
No particulars are given as to where Private Ford was
wounded, the family merely being informed, through a
telegram, that he had died of wounds received while in
action. The sympathies of the people of Wainwright are
extended to the Ford family.

TWO ACCIDENTS OCCURRED SATURDAY; NEITHER MISHAP RESULTED IN SERIOUS INJURY

Little Gordon Kenny, son of
N. S. Kenny, town secretary,
was the victim of an unusual
accident on Saturday afternoon
which resulted in the boy sus-
taining a fracture of the left
fore arm. Gordon was play-
ing "Hide and Seek" with some
other little people, and to hide
from his followers jumped into
a barrel on the back steps of
the Dawson home. His motion
caused the barrel to move and
with the boy, it fell from the
step to the ground. Dr. Mid-
lemas was immediately called
and set the fracture. The boy
is now reported to be doing
well.

Although her injuries were
not serious, Mrs. Ed Goddard

WESTERN CANADA AND THE WAR.

SPEAKING BEFORE THE EDMONTON Industrial Association on Thursday of last week, Rev. J. L. Hughson, of Grace church, Winnipeg, formerly pastor of the McDougall church in Edmonton, had the following to say in regard to the war and its relation to Canada: "No one thinks for a moment that the British Empire is not perfectly safe, and, no one doubts for a moment that the cause of the Allies will triumph."

"Everything that is best in the prosperity of the past will come back and be placed on a more substantial basis. In time past, the real estate business and hurtful speculation was carried a little too far. These things will not come back. The energies of western Canada will be devoted to production of wealth. We will have better times on a more substantial basis than ever before. An era of production will follow and the "Made in Germany" sign, so common to every household in Canada, will be replaced with the "Made in Canada" sign."

Expressions similar to the foregoing have been voiced by other speakers during the past few months. They are expressions of opinion which give every prospect of becoming true. No one will doubt for a moment but that the war has been hurtful to Canada in many ways. But the war also, so far as it has gone, has also provided the means for added benefits to Canada and the Canadian west. Forcefully, it has told the people of Canada, exactly the position in which the Dominion finds herself, so far as the commerce of the world is concerned.

It has revealed to the Canadian people, Canada's weak points and how very much she was dependent upon other nations. The "Made in Canada" idea is also an offspring of the war, and in this idea and its prosecution, the benefits that will be brought to home trade in Canada, will be so great that they will never be estimated.

Then again, it has been the war that has resulted in so much added territory to Canada, being placed under the treatment of the plow. The crops from this land will mean added wealth to the Dominion which will naturally circulate in other channels of Canadian commerce with benefit to all phases of business life. The increase of Canadian manufactures, and the greater production of Canada's soil, will be the two outstanding features brought about as a result of the war.

ALLIED FORCES NOW HAVE THEIR PLANS WELL IN HAND.

THE INTERVIEW WHICH Sir John French gave Frederick Palmer, the distinguished war correspondent who is representing the Associated Press, again sounded the confident note. The statements attributed to the general in another interview a few days ago were so optimistic that one hesitated about accepting its genuineness. But this dispatch of Mr. Palmer leaves no doubt that those in authority over the Allied forces have now their plans well in hand for a steady advance that must lead to a complete crushing of the enemy. The high tribute which Sir John French paid to the Canadian troops is all the more gratifying because Mr. Palmer was not writing for the special benefit of Canadian readers, and the reference to our soldiers was a purely incidental one.

The foregoing is what the Edmonton Journal has to say in reference to the interview with Sir John French.

THE MATTER OF ASSIMILATING INCOMING GERMANS.

IT HAS BEEN SUGGESTED that plans should now be made in Canada for the full and complete assimilation of any German and Austrian immigrants who may come to Canada after the war seeking to change their nationalities. The suggestion is a good one, but the method of assimilation will need serious thought in its promulgation. In this regard, it has been suggested that in all future applications for naturalization, there should be a clause in the oath to which every German must subscribe, renouncing absolutely, his citizenship as a German, before being permitted to hold land or to settle down and trade in any part of this Dominion. But even with such a regulation, it is hardly reasonable to suppose, after recent evidence, that the Canadian German population would stand by its oath, should war again be declared between Great Britain and Germany.

Not that we like sounding our own horn too much, but the little testimonial we had handed to us the other day cannot be suppressed. It was given by Mr. J. W. Wyatt of Jarrow to a local businessman and then transmitted to the Star. Here it is: "I have travelled a great deal and have seen a host of country weekly newspapers in any time but never before have I had the pleasure of seeing such an up-to-date country newspaper as the one published in your town. Despite the facilities at hand for its preparation, it compares in its appearance with the best of city journals." The Star thanks Mr. Wyatt for his commendation.

The story published in last week's issue of the Star to the effect that \$10,000 was being sent out of town every twenty six days, has been the cause of much comment. Certainly, the information is startling in its character and detrimental in its results. But there is a reason for this daily dollar outflow and the people who are exchanging their money for postal notes, are not wholly to blame. To a great extent a remedy can be effected and the sooner a course of action is taken, the better it will be for every resident of Wainwright. Catalogue houses have caused the downfall of more than one small town whose businessmen have not taken steps to see that the patronage given such houses from their town is reduced to the least possible minimum.

SOME NEW LIGHT ON OLD SUBJECTS

Conditions Created by the War Have Caused Changes in Policy and Methods of Business

A Canadian editor, who has never put very much stock in the "Made-in-Canada" appeal, and has always inclined to low tariff views, now sees the question in a different light as witness the following paragraphs from a strong editorial on the subject a few weeks ago:

"We have never been very strong apologists for the 'Made-in-Canada' idea because we have never been great believers in mixing sentiment and business. We are inclined to believe that the Canadian manufacturer, who is compelled to make his goods up to a certain standard or fail to get the business, is much more likely to be successful in the end than the man who feels that he has so strong a sentimental hold on the people of the country that he can ignore what he produces even if the quality is not of the best. We have met a good many manufacturers who hold the same view, and while naturally wanting to use every influence they can, so long as it is not dishonest, to increase their sales, are not disposed to impute very much practical help to the 'Made-in-Canada' propaganda which was started some ten or more years ago."

"We think, however, that the present is a time when we can look at this question through different spectacles. The times today are not normal; they are such as we have never seen before and we should hope never to see again; they are times such as should prompt every Canadian to lend a helping hand to every other Canadian, and in doing this help not only Canada but the Empire at large. While it is important that we should make as large a contribution as possible, of both money and men, to aid the Empire, it is also important that we should do all we can to look after our own people, and we cannot do this in any better way than by providing them with work. That the war is over there, and we come back to old time conditions, it is the duty of every Canadian citizen to aid, in whatever way he can, the production of goods by Canadian factories. If there was ever a time for the 'Made-in-Canada' slogan it is now."

WHY THE CAMPAIGN MUST BE CONTINUED

Financial Reasons For Continuing the "Made-in-Canada" Movement—Dollars at Home

Here are financial reasons why the "Made-in-Canada" campaign must be continued: Imports into Canada, 1913, \$682,052,292 Exports from Canada, 1913, 393,282,057

Balance against us, \$288,800,335 Interest on our borrowings

Wages abroad, \$150,000,000 Total settlement, 1913, \$438,800,335

How do we do it? Very simple—we borrow \$450,000,000!

Last year it was pretty much the same thing over again. So we borrowed some more. But (note this, please!) borrowing wasn't nearly so easy; we couldn't get nearly so much!

This year (1915) we'll hardly be able to borrow a dollar abroad! England and France need their money for other purposes.

What's to be done? For the honor of Canada, we mustn't fail in meeting our obligations, and there's still that \$150,000,000 of interest to pay!

Turn it over carefully in your mind, and you'll soon be convinced there's only one possible way to meet the situation. We must import less and export more. In the words of Hon. Mr. White, Finance Minister, we must produce, produce, and keep on producing!

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, and the Yukon territory, the North-West Territories and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 5,500 acres will be leased to one applicant. A lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights are applied for and situated.

In surveyed territory the land must be recultivated by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked by the applicant himself.

Each application must be accompanied by fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid to the merchant, while output of the mine at the rate of 10 cents per ton.

The person operating the mine shall furnish the Agent with sworn returns according to the full quantity of merchantable coal mined and the royalty thereon. If the coal mining rights are not operated, such returns shall be furnished at least once a year.

A lease will include the three mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be made in the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of District.

Edgerton

Messrs. Jackson and Stratton, since their possession of the livery barn, have made an effort to keep up the efficient standard set by the former owners and Edgerton people are hoping that they will continue with their work for the benefit of this district.

The Oddfellows of the lodge spent a pleasant evening last Thursday in the Milne Hall. It is said that the officials of the lodge intend holding a number of similar social evenings in the near future for the benefit of those connected with the order.

A meeting was held in the Presbyterian church on Monday evening of last week for the purpose of organizing a Union Sunday school. By reason that there has been no Sunday school for children during the past few weeks, the present meeting was held. It was decided to institute a union school in the mornings. Rev. E. Halsted, Mrs. Morrow, Mrs. Stratton and Mrs. Challenge were appointed teachers. They will take up their duties in the near future.

Heath

Mrs. S. R. Moffatt of Leonard, Ont., who has been spending the winter months in Wainwright with her daughter, visited her niece, Mrs. Fred Ford, during the past week.

Owing to the high water in Ribstone Creek, the grade on the township road leading into Heath, is in a bad shape and water is running across the grade in several places. Ribstone creek is higher this spring than it has been for eight years.

Miss K. Jury, who has been in Edgerton during the past month, returned to Heath on Saturday.

Rev. Mr. Wallace preached in the Heath U.E.A. Hall on Sunday. Rev. Mr. Assiter also exchanged pulpits on that day. March 28th was field day for the temperance cause and Rev. Mr. Wallace preached a strong sermon in support of temperance, or really total abstinence.

Information concerning the death of Private C. E. Ford of the 90th Winnipeg Rifles, is given more completely on the front page of this issue.

Sligo

A large number of relatives and friends were present at the 40th anniversary of the marriage of Mr. and Mrs. J. W. Knott of the Sligo district, which was held at Sligo on Wednesday of last week. Of the 25 persons in attendance, 18 were members of the family. Mr. and Mrs. Knott have been residents of the district for the past five years, coming here from Gray county, Ontario. The happy couple were the recipients of many presents.

BUSINESS MEN MUST LOOK AFTER TRADE TERRITORY

The trade territory of a town is not all dependent upon the distance to neighboring trading points. The trade territory depends upon the enterprise of the merchants and the residents of the town. If a town does not reach after the trade it will come only as fast as it has to and it will grow as it is forced to. But if the merchants go after business in the surrounding country, advertising in every possible way, and making good every word of their advertising, trade will come from an ever-increasing radius, the town will gain a reputation for being awake and it will forge to the front. It is the men in the town and not altogether the men living within a certain number of miles from it that makes the town good for nothing.

The Star's correspondent in the ranks writes stating that all the boys who volunteered from the Wainwright district are, each and all, enjoying perfect health.

Mrs. Watson, wife of Doctor Watson, formerly of this town, died at her home, near Ground on Sunday last. She leaves a husband and three small children to mourn her loss.

A regular practice of the Wainwright Fire Department will be held on Thursday evening of this week at 7 o'clock. It is expected that the firebell will be sounded to call the boys together.

Nels Dahlgrun has purchased the S. W. quarter of 35-45-5 and intends beginning work this year. He expresses the opinion that the returns from farming during 1915 will be good.

H. Montgomery of the G. H. Beaudry Co., will leave town during the week end for Calgary. The fact that 'Monty' intends returning with a bride, is sufficient evidence as to tell the reason of his visit to 'Cow town'.

Easter services in St. Thomas' church. Holy Communion at 8 a. m. and after the evening service. Morning prayer at 11 children's service at 4, with presentation of offerings. Evening prayer at 7.30 when the Easter anthem, 'Hallelujah, Now is Christ Risen', will be rendered by the choir.

A curious crowd was attracted to a wagon on Second Ave. on Tuesday afternoon containing the carcass of a lynx which had been shot by Mr. Limpert, about three quarters of a mile south of town. The animal was a splendid specimen of its kind and measured 3 feet 4 inches from head to tail. This makes the second lynx killed in the district within the last two weeks, the other having been shot by Fred Moffatt. The animals were male and female respectively and it is presumed they were mates.

MEN WHO KNOW

ENDORSE THE IDEA

What Four Prominent Canadian Premier Say of "Made-in-Canada"

Sir George Foster, Minister of Trade and Commerce: "I have followed with great interest the campaign being so capably conducted in favor of the 'Made-in-Canada' idea. I am showing the matter, of course, entirely from the point of view of unemployment, and cannot rid myself of the conviction that one of the best remedies possible is that we who buy in Canada—and all of us buy more or less—shall make it a point wherever possible, to purchase for our goods what has been made by Canadian hands and of Canadian material. In this way we would considerably assist in the quick reduction of unemployment and the quick reviving of production and trade."

Hon. Walter Scott, Premier of Saskatchewan: "If all Canadians learned to consciously prefer the manufacture of their own country, as they do an consciously prefer its natural products, there would be a splendid two fold result—the sum of our national prosperity would be increased, and more important still, the sum of our pride and confidence in Canada would be increased also."

Hon. G. H. Murray, Premier of Nova Scotia: "The 'Made-in-Canada' campaign has my heartiest sympathy. I am sure it will meet with a generous response from all Canadians. The movement aims at the development not only of a practical patriotism but also of a fine spirit of mutual helpfulness among our people."

Sir Richard McBride, Premier of British Columbia: "I am very glad to say anything that I can in support of the most commendable idea contained in your programme. One of the effects of this war has been to arouse the people of Canada to the necessity of a greater production in various lines of industry, and I know of nothing which will tend to promote this more than the campaign you are now engaged in."

STORY OF A STORE

Tom Tasker had a corner store. He got it from his father who built up his trade from the farmers that spent their money for things made in Canada. Taskerville grew into a little town of cement sidewalks and electric lights. Tom's business developed and he got an automobile, a \$10,000 house, and a big new store with plate glass, patent show-cases and a stenographer.

The blacksmith shop grew into a carriage factory; the local cabinet-maker became a furniture manufacturer. A few years ago when a wide-awake man discovered that the country around Taskerville had the very best kind of soil and climate for raising tomatoes, cucumbers, field peas, corn and small fruits, and reckoned a good stroke of business to start a canning factory in Taskerville, the farmers fetched their truck to the factory which became as good a purveyor of canned goods as any in Canada. Its products were found in the mining camps and the kitchens of the wealthy that went to grand opera. But whenever any farmer went to the store of Tom Tasker, built up from their farms in two generations, they never could find a blessed tin of the Taskerville factory's goods on his shelves. When they asked him why he wouldn't encourage home industry and stock up with home goods, he said he reckoned he knew his own business.

Wherefore the farm folk round about Taskerville boycotted the Tasker store, and Tom Tasker made an assignment. Which, to most sensible folks' way of thinking was the only way to prove to the Tasker intellect that you can't expect both boots to fit the same foot.

This is a homely illustration and localized, to Taskerville; but if it doesn't prove that it's the business of the retailer in Canada to keep on his shelves the goods made in Canada by Canadian workmen at a time when Canada is making the fight of her life to stay industrially efficient—then there must be something wrong with the argument. Think it over.
